EDUCATION

Vellore Institute Of Technology Chennai

B. Tech Computer Science and Engineering

Coursework: Operating Systems, Computer Networks, Data Structures and Algorithms, DBMS

Aug 2023 – Present

CGPA: 8.71

JEE Mains 2023

Grade: 12 CBSE (Narayana High School)

Grade: 10 ICSE (Siva Sivani Public School)

Percentile: 94.6

Percentage: 81.6

Percentage: 95.3

EXPERIENCE

Inventrux

Software Developer Intern

June 2026

Visakhapatnam, India

- Researched, deployed, and optimized diverse open source **LLMs** (Llama, Qwen, DeepSeek) on **NVIDIA AGX Xavier**, benchmarking inference performance and integrating **Ollama**, **Docker**, **Continue**, **Cline** to establish a scalable, cost free local agentic coding platform.
- Developed an enterprise grade code analysis platform integrating **SonarQube**, **OWASP Dependency Check**, and **LLMs** to automate static application security testing (SAST), software composition analysis (SCA), and AI assisted code remediation across **all major programming languages**.

Summer Research Intern

Vellore Institute Of Technology Chennai

May 2025 – August 2025

Remote

- Developed a deep learning based image enhancement system using Generative Adversarial Networks (GANs) to remove glare from eye images, improving visual clarity and downstream analysis quality. Leveraged Python, TensorFlow, Keras, OpenCV, NumPy, Pandas, and Matplotlib to design, train, and evaluate models within an end to end research workflow.

PROJECTS

AI-RAG Intelligence Platform [\[Github\]](#)

Developed a GenAI-powered assistant using **Next.js**, **Node.js**, **Express.js**, **Qdrant**, **HuggingFace**, and **Groq**, enabling natural language querying over documents. Implemented a **RAG pipeline** with semantic chunking and vector search for accurate, context-aware responses, with source-grounded answers via a chat interface.

AI-Powered SaaS Platform [\[Github\]](#)

Engineered a full-stack AI powered SaaS platform using **Next.js**, **Prisma**, and **NeonDB**, integrating Clerk based authentication and middleware for secure, scalable user management. Implemented advanced media handling with **Cloudinary**, enabling image/video uploads, transformations, and AI-powered smart previews, enhancing content processing and user experience.

Secure LMS with Payment Integration [\[Github\]](#)

Designed a scalable LMS using **Node.js**, **Express.js**, and **MongoDB**, with JWT authentication, modular middleware, and secure API design. Integrated **Razorpay** for payments and optimized performance using indexing and Mongoose features, while ensuring protection against common web vulnerabilities.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Generative AI Professional

Oracle University, June 2026

- Complete Web Development Course

Hitesh Choudhary Udemy, July 2026

ACHIEVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

- **Lead, CodeChef VIT Chennai Chapter:** Organized flagship hackathons, technical workshops, and hosted **Abdul Bari**, driving community engagement and technical learning.
- **100% Attendance Award, University Day 2025:** Recognized for maintaining **perfect attendance** throughout the academic year 2024–2025.
- **SanDisk Hackathon Finalist (Top 50/1000+):** Shortlisted among the top **50 teams out of 1000+ teams**, demonstrating strong problem-solving and collaboration skills.

SKILLS

Languages: Java, C++, C, Python, JavaScript, TypeScript, R, SQL, HTML, CSS

Technologies/Frameworks: React.js, Next.js, Node.js, Express.js, Django, FastAPI, TensorFlow, Pandas, NumPy

Databases: MongoDB, PostgreSQL, MySQL, Firebase, Qdrant, ChromaDB

Cloud: AWS

Version Control and other Tools: Git, GitHub, Postman, Power BI, REST APIs, Tableau

Soft Skills: Leadership, Event Management, Public Speaking, Team Collaboration
